RE: City of Jackson, Mississippi, EPA Consent Decree  
8<sup>th</sup> Semi Annual SEP Report, July 2016 through December 2016

Dear Gentlemen:

Attached please find Supplemental Environmental Project Semi Annual Report #8. In transmitting Quarterly Report No. 15, the City inadvertently failed to include this report.

Please do not hesitate to contact me or Mr. Williamson, if you have any questions.

Sincerely,

Jerriot Smash  
Interim Director, Department of Public Works

cc: Les Herrington, P.E., Mississippi Department of Environmental Quality  
Monica Joiner, City Attorney  
Wanda Knotts, Interim Deputy Director, Water/Wastewater Operations  
Terry Williamson, Consent Decree Manager  
Public Depository, Eudora Welty Public Library

## Supplemental Environmental Project

Semi Annual Report #8

July 2016 through December 2016

The purpose of the SEP (Supplemental Environmental Project) is to reduce extraneous flows entering the WCTS (Wastewater Collection and Transmission System) through defective residential Private Laterals and through illicit connections from residential properties of eligible property owners. For purposes of this SEP, an illicit connection is any residential connection to the WCTS that discharges any substance or solution that is not intended to be transferred via the WCTS, such as stormwater, surface water runoff and roof runoff. The WCTS becomes a conduit for stormwater when defective Private Laterals or illicit connections allow rain or groundwater to enter the WCTS. Certain components of the WCTS Evaluation Plan required by Section VIII of the Consent Decree will assist the City in identifying defective Private Laterals in need of repair or replacement and illicit connections to the WCTS.

### **Significant milestones reached this period for this activity:**

- **Made the third Supplemental Environmental escrow installment**
- **Retained Don McCrackin to provide program management services for the Private Sewer Lateral Program. Mr. McCrackin is being paid from the Water/Sewer Fund, not from the Escrowed Funds being set aside for the Supplemental Environmental Project**
- **Issued notices to proceed to Dent Air Conditioning Co., the current qualified plumbing contractor, for the first three qualified projects**
- **Signed up additional qualified homeowners for a total of 40**

### **Significant milestones anticipated to be completed during the next reporting period:**

- **Continue replacing the defective laterals of the remaining 37 qualified homeowners; this is anticipated to extend into the next reporting period**
- **Continue community outreach to present the SEP Program to residents including the following:**
  - **Meetings with homeowner associations**
  - **Meetings at cultural centers for senior citizens**
  - **Meetings with area churches**

- **The City will continue to secure additional authorizations from qualified homeowners**
- **Continue public notification of Private Service Lateral Program and determinations of eligible property owners**
- **Continued construction of private service lateral repair or replacement**
- **Solicit qualifications from additional plumbing contractors to provide the repairs at pre-arranged unit prices for required work**
- **Continue to solicit applications for the program and monitor the number of qualified homeowner applications received**

### FOR YOUR INFORMATION

Carefully examine this statement and compare it to your records. If you note any discrepancies, please notify our Audit Department at the following address: P.O. Box 1758, Jackson, MS 39215-1978. No reply is necessary if statement is correct.

### MONEY MARKET REFORM

As noted on your statement last month, the U.S. Securities and Exchange Commission (SEC) issued new rules for further regulation of Money Market Mutual funds that fluctuate in value (floating NAV Money Market funds). Trustmark has now implemented the necessary changes to move out of those funds. If you have additional questions, please contact your Relationship Manager

- Trustmark serves as trustee, agent, custodian or some similar capacity regarding this account. This statement is your periodic accounting of assets held and activity within the account. You should immediately review this accounting very carefully, and you should consult with your legal and/or financial advisors about this account on a regular basis. If you notice any activity in your account that concerns you, we expect you to bring it to Trustmark's attention immediately. If you do not contact Trustmark within 60 days after the date this statement is mailed, Trustmark will rely on the understanding that you are satisfied with this accounting and Trustmark's handling of the account.

- If you have any questions about how to understand the information on your statement, please contact your relationship manager, who will be glad to explain the sections and terminology used.

- You may contact your relationship manager, whose name is on this statement for information about this account. You are also invited to contact Trustmark's audit department directly by writing to PO Box 291, Jackson, MS 39205. Attn: audit department.

- Trustmark has processes and controls in place to protect you and your account. These were designed with the assumption that you would also take steps to complement our processes. Your role is necessary to achieve the control objectives implemented by Trustmark. You should understand our processes and procedures as they relate to you. These paragraphs describe what you should consider to increase the assurance that the controls are safe and effective. The considerations presented below should not be regarded as a comprehensive list of actions that should be employed.

- Contact your Trustmark relationship manager if there have been any changes in your financial situation or investment objectives, or to impose any reasonable restrictions on the management of model portfolios, or to modify existing restrictions. Trustmark Investment Advisors, Inc. ("TIAI") will review the reasonableness of such restrictions to the extent that Trustmark makes TIAI aware of them. If proposed restrictions are inconsistent with the model portfolio's investment strategy, nature or operations, such restrictions will be deemed unreasonable and will not be applied. If you refuse to modify or withdraw the restrictions, participation in the model portfolio will not be permitted. If you would like a copy of the most recent disclosure document for your sponsor or model portfolio investment adviser, please contact your Trustmark relationship manager.

- Trustmark's wealth management division's standard delivery instructions should be used to add assets to your account. When delivering assets from your account you should provide specific written instructions to Trustmark to facilitate the transaction. All additions and reductions of assets in your account will be included on your periodic statement, which you should review in a timely manner.

- Investment products and accounts are not insured by the federal deposit insurance corporation ("FDIC"),

# ACCOUNT STATEMENT

PAGE 4

ACCOUNT NUMBER: ██████████

DECEMBER 01, 2016 TO DECEMBER 31, 2016

securities investor protection corporation ("SPIC"), or any other governmental or private insurer. Investment products are not bank deposits and are not obligations of, or guaranteed by, Trustmark or its affiliates. All investments are subject to investment risks, including possible loss of principal amount invested.

- For customers utilizing our sweep services, when feasible, uninvested cash balances in your account are automatically "swept" by Trustmark into money market mutual funds in order to obtain interest on those funds for you. The money market funds are sponsored and operated by institutions not affiliated with Trustmark. Trustmark will not charge a fee directly to your account for providing investment services. However, the companies that sponsor the cash management mutual funds pay Trustmark compensation based on the total amount of customer funds invested, reducing the amount of interest your account earns. See the mutual fund company's prospectus for additional information.

- Certain mutual fund companies or their distributors engage Trustmark to provide shareholder and administrative services to accounts invested in their money market mutual funds, except for qualified retirement plan accounts. The compensation Trustmark will receive from those mutual funds in connection with such services varies by mutual fund and, on an annual basis, ranges from 0.0% to 0.50% of the amount invested.

- The fees paid by the mutual funds for investment advisory and administrative services are described in the prospectuses and the statements of additional information for the mutual funds, which you should read. Such fees are expenses of the mutual funds and are reflected in the investment returns, which are quoted net of all expenses.

- Money market mutual funds are not obligations or deposits of or endorsed or guaranteed by Trustmark or any of its affiliates or any financial institution. Money market mutual funds involve investment risks including the possible loss of principal. An investment in a money market mutual fund is not insured or guaranteed by the FDIC or any government agency. Each of the money market fund portfolios of the fund seeks to maintain the value of an investment at \$1.00 per share; however, it is possible to lose money by investing in a money market fund. Yields for money market funds fluctuate.

- Trustmark obtains prices, market values and estimated income figures from sources Trustmark believes to be reliable, but these are not guaranteed. The actual prices, market values and income might be different depending upon the number of shares you own, timing, rapidly changing markets and a number of other factors. Quoted prices are a snapshot in time and fluctuate with market conditions. The statement may include some investments the value of which is not easy to determine. This would include, but is not limited to, investments in limited partnership interests, closely held companies and real estate. Prices for such assets are estimates and are not guaranteed. The quoted price may not be as of the last day of the reported time period.

- Never share your user ids, passwords and other security information with anyone. Change your passwords periodically. Physical and logical access to systems sending data to and receiving data from Trustmark should be restricted to authorized personnel. If you are transmitting or receiving data with Trustmark, you should compare the data you send or receive to your statements to ensure the information is complete and accurate.

- If your account maintains holdings at a third-party custodian that you have chosen, Trustmark reflects the activity and positions in your account in a manner Trustmark believes to be as reliable and accurate as possible. However, Trustmark has no guarantee of accuracy of the third-party custodian's controls, processes, or performance. You should consult third-party custodians directly when making investment decisions. As a result of pricing methodology, timing and other factors, statements and reports produced by Trustmark and third-party custodians will frequently have differences. For the most accurate reporting, Trustmark recommends choosing Trustmark to serve as custodian of all assets in your account.

- Past performance does not guarantee future results. No investment strategy can guarantee a profit or protect against a loss. Please remember that all investments carry some level of risk, including the potential loss of principal invested. Although stocks have historically outperformed bonds over long periods of time, they also have historically been more volatile. Investors should carefully consider their ability to invest during volatile periods in the market. The securities of small capitalization companies are subject to higher volatility than larger, more established companies and may be less liquid. Bond investors should carefully consider risk such as interest rate risk, credit risk, securities lending, repurchase, and reverse repurchase transaction risk. Greater risk is inherent in investing primarily in high yield bonds. They are subject to additional risks, such as limited liquidity and increased volatility. There is an inverse relationship between interest rates and bond prices. Investing in foreign securities is subject to certain risk not associated with domestic investments such as currency fluctuations and changes in political and economic conditions. Small cap equities, international equities, and real estate securities are generally more volatile than large cap equities and bonds. Commodity prices fluctuate more than other asset prices with the potential for large losses and may be affected by market events, weather, regulatory or political developments, worldwide competition and economic conditions.
